

### **INTERVIEW SUMMARY**

A telephone interview was held on August 18, 2010. The participants included Examiner Campos and Tyler Nield (63,287). In the interview, the participants discussed the art of record including Yanaka, et al., U.S. Patent No. 6,467,034 (hereinafter “Yanaka”). The Applicants proposed an amendment to independent Claim 1 for discussion, however the examiner recommended an alternate amendment instead. The amendment recommended by the examiner is included herein. The examiner stated that the amendment would likely overcome the art of record including Yanaka, but that she would review the art and update the search. The Applicants wish to thank Examiner Campos for her help and willingness to hold the telephone interview.
